Comments

Jacob Fielding Roecker: Completed. W1 delivered.

06/04/2020

Jacob Fielding Roecker:

- Assisted in the transition from a Deloitte-led to a Simplot-led project team without an increase in resources from the Simplot team
- Coordinated the enabling teams efforts from test phase through deployment to ensure predictability for the process teams
- Redesigned phase planning to leverage existing opportunities, significantly reducing the effort required to plan each phase
- Successfully delivered Wave 1 on-time
- Managed and contributed to the critical chain at several key points including preparing the CWF Data for final cutover
- Ensured project alignment through the maintenance and publication of project timelines and critical path ranking documents

03/09/2020

Build the Bedrock Team into a One Simplot Team

The Bedrock Team is responsible for delivering One Simplot solutions to the rest of the company. To do this effectively the program must operate as a One Simplot entity. This means consolidated and defined processes for project work, unified tools, and cohesion/collaboration amongst different teams. My responsibility is the axis of enabling teams and enabling projects the program depends on.

Improved resource productivity	09/01/2019	08/31/2020	0.0%	On Track
